## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1 and 3-5 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claims 1 and 3-4 are allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 2 wherein the secondary reference signal approaches the value of the integral of the primary reference signal at a pulse-width of one (see specification page 6, lines 7-10) in combination with the rest of the limitations of the base claims and any intervening claims. Claim 5 is allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 2 wherein the method of operating includes comparing the integral of the primary reference to the integral of the voltage across the load when the input is zero (this is seen to be done by amplifier 229) in combination with the rest of the limitations of the base claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
